the possessions at Shanghai and Central China. Thus we see too many reasons for ever dreaming of aid from any European source."

To show that these prophecies were not improbable, Senator Lewis cited historical instances where nations formerly belligerents, subsequently became allies. Declaring that both England and Germany had abandoned heretofore acknowledged principles of international law and that "for America it is now plain that in any emergency involving her interests there is no law of nations that can be relied on for any benefit or advantage," Senator Lewis led up to his predictions by endeavoring to show that by retaining the Philippine Islands, the United States had itself violated "that prime rule of international law—the departure from her own soil and entering that of another."

"It is the violation of this principle and its consequences which is today the most dangerous of America's republican institutions," he said.

Previous to entering the Philippines, he asserted, our right to deny the right of Chinese and Japanese "to enter our civilization," was not disputed, but thereafter it was natural that "these Asiatics should turn to us and say that by all the laws of nations we must give what we take and that as we had come into Asia with our people, they had the right to come into America with theirs." This situation, he said, was the real cause for President Roosevelt's action in taking over the Panama Canal territory at a time when Japan had just emerged successfully from her war with Russia.

"A moment's view restores us to a sense of our real situation," he concluded. "With South America suspicious of our methods, lest it mean conquest under the guise of the Monroe Doctrine; Mexico regarding us as dis-

The readers of this paper will be pleased to learn that there is at least one disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known for the mucous membrane. Catarrh, being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the cause of the disease, and giving the patient strength by building up the constitution and assisting nature in doing her work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

DEPARTMENT OF THE INTERIOR

U. S. LAND OFFICE at Phoenix, Arizona, July 25, 1915.

Notice is hereby given that James A. Sutherland, of Humburg, Arizona, who, on February 23, 1910, made small holding entry, No. 69115, for Tract No. 37, Section 1 and 6, Township 24S, Range 20E, G. & S. R. B. & Meridian, has filed notice of intention to make final proof, to establish claim to the land above described, before J. D. Taylor, U. S. Commissioner, at Bisbee, Arizona, on the 8th day of September, 1915.

Claimant names as witnesses: William T. Fowler, of Garces, Arizona; Alfred A. Bonds, of Humburg, Arizona; Lemuel C. Shattuck, of Bisbee, Arizona; Peter J. Hand, of Garces, Arizona.

turbans and usurers; we are at once surrounded by enemies, not because of the empty, but because of their misunderstandings. Solid conflict arise in the Orient from which it was necessary to defend ourselves in Asiatic spheres we can see that before the Atlantic fleet could pass through the canal, the canal would be blown into atoms through the operation of these nations now bordering it, who would co-operate with our enemies for the gratification of real or imagined grievances. And all of this a legitimate inheritance from the violence by ourselves of the fundamental international law that ordained all republics and the theory of republics to their own zone."

"If we persist in the violation of this fundamental law of nations and continue to press our disadvantage against the sure fate of its consequences, then let us promptly embark upon the era of army and navy quantity and quality, sufficient to defend us against invasion and to protect our possessions. This latter undertaking is too stupendous in expense and sacrifice to be entered upon, if there is a nobler and more consistent course for the Republic of the United States to take. I suppose an alternative, I propose we return the government of the United States within her own borders. . . . and in conjunction with this promptly let us call to council all the governments of South America and their sisters of the southern seas. The alliance with the South American republics make common use for the protection of republican form of government in the western hemisphere. Have joint alliance of friendship by declaring that our Monroe Doctrine shall be meant in no wise to interfere with the purely internal affairs of the South American lands, but that it shall be limited to the protection of the western hemisphere by the United States against any effort on the part of monarchical nations to overcome by force any republic or free people in the western hemisphere. Then, in turn for this guarantee, have a brotherhood compact with all the western hemisphere republics that we mutually will oppose any invasion by Europe or Asia from this continent, or any entrance by them as governments upon the sphere of republics, except as shall be in pursuance of the spirit of treaties previously made. Then, add to this compact a demand calling for open seas to all people and an exchange of products of nations upon equal terms to all people. Then we, restored to the principles of American republics, can announce the doctrines of international law to the world, suggesting the terms of amity and the codes of law."

"We will then stand as America—one continent, united for republican government by republican form and democratic spirit."

DOLING CASE NEARING ITS CONCLUSION

(Continued from Page One)

Advisers have been received here to the effect that Isadore Pena, one of the summer boarders at Hunt's Honor camp, north of Tucson, had strayed away from the camp on Monday last and up to the present time he has not been found. There was no reason why he should have left as he was given the freedom of the camp and was being boarded at the expense of the state for what little work he performed on the highway during the day. However, the state is anxious to have Pena return home and is willing to pay the sum of \$500 for his detention until one of the state's agents can come for him as they do not like to have the reputation of the camp destroyed by having the boarders leave without giving notice. If a man about 30 years old is seen, about five feet tall, with black eyes, dark mustache, wearing a white hat, dark brown shirt, blue serge suit, suspenders, approach him and with kind words prevail upon him to accompany you to the nearest officer and the state will then pay you the reward that is offered for his return, and Isadore will appreciate it as by this time he wishes he was back at his happy home.

Session Laws Received.

The various county officers have received during the past few days copies of the session laws of the three sessions of the state legislature from Secretary of State Sidney Osborn. The volume is composed of 460 pages. The first 132 deal with the regular session; 104 pages constitute the work of the first special session and 124 the second special session, and 22 the initiative and referendum petitions. Each session is in a subdivision by itself, as are the petitions. The annotations of sessions of the legislature as well as the Revised Statutes of 1913 have been compiled by Con P. Cronin, state law and legislative reference librarian, and are now being printed and will soon be mailed out.
